

Runyon Sports Complex

2025 Lightning Policy

Revised 12.01.2023

RSC GM, Assistant GM, or Head Field Director on duty will be responsible for making all decisions concerning lightning.

Lightning will be monitored by WeatherBug Lightning tracker.

When lightning strikes 8 miles or closer, all games, camps, tryouts, practice or any outdoor activities at RSC will be suspended for a minimum of 30 minutes.

All players, coaches, and umpires will be asked to get off the field and remain in the dugout or the closest shelter for protection.

If there is another lightning strike within 8 miles during the suspended game time, the clock will restart for 30 minutes. Activities will remain suspended until the lightning is further than 8- 10 miles away.

All activities at RSC such as games, practices, tryouts, and camps may resume when lightning is no longer a concern.

Teams will be given a maximum time of 10 minutes to warm-up before the game has to restart. Games will continue where they left off prior to being suspended.

RSC GM, Assistant GM, or the Head Field Director on duty has the authority to cancel all events at RSC if the forecast, radar, or the emergency alerts warrant cancellation.

RSC GM, Assistant GM, or Head Field Director on Duty can cancel games if they deem that fields are not playable due to any weather circumstances and safety concerns.

RSC prioritizes player and spectator safety above all else.
